Dear Hiring Manager,

With three years of experience in networking product development at R&D office of **Hewlett Packard Enterprise**, Bangalore, I am confident that I will be the best fit for Instructional & Meeting Spaces Student Assistant.

I am currently a graduate student of MS in Software Engineering at SJSU. During my undergraduate degree in Computer Engineering at College of Engineering Pune (COEP), one of the prestigious government institutes (among top 20) in India, various assignments gave me fascinating insights into core subjects. I have worked as an assistant in networking lab at my college. I was responsible for providing solutions for problems related to hardware devices, networking etc. Also I have worked in **VMware**, Pune for developing security platform to protect virtual machines on the same host. Along with that I headed Guinness World Record event of "3248 people solving Rubik's cube simultaneously" in November 4, 2012. I won Gold medal in Ball badminton tournaments for our university. I was also a coordinator of publicity team of Mindspark, biggest technical event in Pune, India.

With the ability to quickly adapt to new Skills and to work in critical situations with proper time management I believe that I can contribute well for this job

Thank you for considering my candidacy for this position and I look forward to hear from you soon.

Sincerely,

Sayali A. Patil
